To all Members of the Powell River Salmon Society, Friends of the Lang Creek Native Plant Garden and Powell River Garden Club

We are delighted to report that the **Salmon Garden** is now complete and ready for viewing!

This garden art installation, which features metal sculptures, rock, driftwood, and a variety of ornamental grasses and other perennials, pays homage to our wild salmon 365 days of the year. Situated at the entrance to the PRSS Salmon Hatchery property, it welcomes visitors from around the world with a beautiful, dramatic, entrance to Lang Creek centre.

We are also very pleased to report that the new improved garden includes a wheelchair accessible viewing area. The project as a whole has required several work parties and its completion was possible through the dedication and contributions of many.

Appreciation & Special Thanks to our Artists and Designers:

Peter Elvy of Wolfworks Blacksmithing and Metal Art for his donation of metal salmon and onsite welding (left) and

Ewan MacKenzie of Exemplar Horticulture Ltd. for donating an original garden design, 361 grasses, and other perennials.
